Personal Statement

Serving the Church means honoring the Lord above all else. Ensuring that He remains the center in every environment, from Sunday gatherings to everyday relationships. I desire to serve the Bride of Christ with intentionality, helping create spaces where people can encounter God genuinely, and not just have a “moment” with Him, but life transformation from beholding Him. I value environments that are not afraid to pursue His presence, take faith-filled risks, and walk in childlike dependence on the Father. I desire to help create environments that are not afraid to get messy in the presence of God, and respond rightly to Him.
